LITE Version: You can use LITE version of the program to generate only unlimited codes which are created only for a single program. SEP Version: SEP version allows to generate codes for multiple programs with a single click. LICENSE Version: The program is licensed using the GPL license which means that you can use it for free as long as you do not change its source code. MORE SCREENS: The new version lets you generate codes from the entire screen of the program or from a selected region of the screen. NEW FEATURES: New features include a new interface and more stable. The main goal of the program is to let you generate unlimited number of codes for all the programs on your computer. So, the app generates various codes such as a universal, a duplicate, a reverse and a password for any of your games. The program uses your mouse or keyboard to generate the codes. The codes have various features such as for unlock different bonus features and allow you to save and use codes to play any game. Other features include ability to generate codes from games that are currently played. For a more detailed tutorial on how to use the app for a new user, please refer to the video below: The new version provides better user experience than its previous versions and are fully compatible with Windows 10. Using the new version of the app, you can generate codes for any game that is running on your computer. In addition, the new version of the program allows you to generate codes for more than 100 games at a time. The new interface also provides you with a lot of additional options such as reset codes. In addition, you will be able to generate codes on demand which can be generated during game play. More importantly, the program has an automatic button feature which allows you to create a new code for any game. Below is a step-by-step tutorial on how to use the program and generate codes for different games on your computer. To begin with, download the app from our site and install it on your computer. Once the program is installed, launch it and enter your email address and your password. In this step, you will be prompted to log in to your account. Once you log in successfully, you will be able to generate unlimited codes on demand. Now, you can use any game that you want to play. And the best part is that the program does not require you to do anything. The new version of the program is very easy to use and all you need to do is 82157476af
